

The 6 main competence of Ionised oxygen :

- **Structural:** The effect of Ozone therapy will help to regenerate the cartilage and clean up fibrosis while detoxifying the cells.
- **Circulatory:** Ozone therapy will improve the micro circulation in the arteries, vein, and lymphatic system.
- **Neurologic:** Ozone will act as an anti-inflammatory effect and pain killer that can be compared to an anaesthesia done with Lidocaine.

- **Immunity:** Ozone is suppressing the gene NF-KB and can regulate the lymphocytes T and B and other Interleukins (IL-10).
- **Energetic:** Ozone therapy helps in almost all deregulation like Anxiety, Depression, and sleeping problems.
- **Aesthetic:** Ozone helps to regenerate collagen which is impacting Acne, scars, wrinkles, stretch marks, and cellulite.
